

31 January 2012

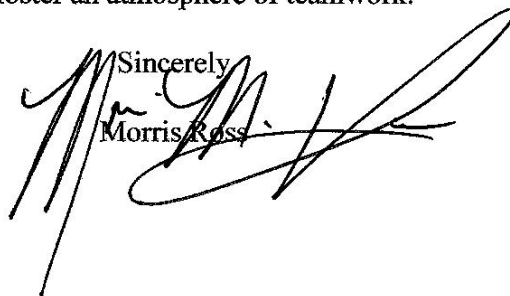

To Whom It May Concern:

I have known Mr. Kuron Tyus since September 2001, as I was his immediate Supervisor while he served proudly in the United States Navy. I believe he has acquired skills to solve complex technical issues, deal effectively with personnel and complete projects on schedule. He is proactive and meticulous in every facet of prioritization and coordination.

While serving, and working for me, he superbly developed and implemented a comprehensive plan for day to day operations while managing hundreds of man-hours while coordinating jobs and massive manpower reductions. He is an outstanding Mentor, Team Leader and Trainer and provided career training and guidance to many subordinates, peers and seniors alike.

He is a committed team player who was completely dedicated to the overall mission, excelling at every task and always recommended for advancement. Kuron is an outstanding leader and true professional with infectious enthusiasm, his imaginative; intelligence and business-like manner he took into each assignment virtually assured success.

He is a dynamic leader with unlimited potential. I am confident in his abilities to manage multiple projects and foster an atmosphere of teamwork.

Sincerely

Morris Ross
