Chapter 9 - Cinematography: Sight & Sound - Quiz

1. Describe the basic duties of a DP. Explain the difference between a director of photography and a cinematographer.

File	Edit	View	Format
		Formats	B <i>I</i>
A DP ensures the visual image is captured at the highest possible quality, and the difference between a DP and a cinematographer is that a DP does not operate the camera.			
p			

2. What jobs comprise the director of photography's crew? What are the duties of each member of his team?

File	Edit	View	Format
		Formats	B <i>I</i>
Camera operator, 1st assistant camera operator, and the 2nd camera assistant. The 1st assistant pulls focus and the 2nd camera assistant prepares the camera, operates the slate, and manages the camera paperwork.			
p			

3. Why is depth perception important when lighting an actor?

File	Edit	View	Format
		Formats	B <i>I</i>
Depth perception allows us to distinguish the distance between foreground and background.			
p			

4. What are the three main lights used in cinematography? How are they used together to create "the visual image"?

File	Edit	View	Format

← → Formats **B** *I* [List Icons]

Key, fill, and backlight. The key light is shined at the subject's face. This washed most of the shadows out of a face and causes it to look flat, so a fill light sits on the side of the subject to add depth in their face. A backlight is shined from the back of the subject in order to create separation between the subject and the background.

p

5. What is the difference between tungsten incandescents and HMIs? What is the purpose of each?

File Edit View Format

← → Formats **B** *I* [List Icons]

Tungstens are yellow and HMIs are blue light. Also, tungstens are generally used indoors and HMIs are usually used outdoors.

p

6. What are some of the other tools a director of photography will use to create lighting effects?

File Edit View Format

← → Formats **B** *I* [List Icons]

Gels for color, scrims to diffuse the light, cuculorises for patterns, and a bounce to bounce light from one source to another direction.

p

7. What are the different parts of a camera?

File Edit View Format

← → Formats **B** *I* [List Icons]

A light-tight box, a lens, a shutter, an iris, and the focal plane.

p

8. Why is "vetting" your DP so important? When vetting him, what characteristics are you looking for? What do you want to avoid?

File Edit View Format

← → Formats **B** *I* [List Icons]

You want to make sure the DP's style is similar to the style of film you are making. Moreover, you want to make sure he/she is easy to work with, he is smart, competent, and experienced.

p

9. What is the most important quality of a camera?

File ▾ Edit ▾ View ▾ Format ▾
 Formats ▾ B <i>I</i>    
The ability to restrict light except where it is wanted.
p

10. What is a lens and what is its primary purpose?

File ▾ Edit ▾ View ▾ Format ▾
 Formats ▾ B <i>I</i>    
A lens is a collection of glass elements of different shapes mounted in a barrel made of metal or plastic, and its primary purpose is to form a sharp image of an object onto the focal plane.
p

11. What is focal length and what does it affect?

File ▾ Edit ▾ View ▾ Format ▾
 Formats ▾ B <i>I</i>    
Focal length is the magnification power of a lens usually expressed in millimeters, and it affects how large an image will appear on the focal plane.
p

12. What is controlled by the iris?

File ▾ Edit ▾ View ▾ Format ▾
 Formats ▾ B <i>I</i>    
The intensity of light being let in (f-stop) is controlled by the iris.
p

13. What does the shutter control?

File ▾ Edit ▾ View ▾ Format ▾
 Formats ▾ B <i>I</i>    
The shutter controls the length of time that light is exposed to the film.
p

14. In your own words, why is well executed sound important?

File Edit View Format

← → Formats **B** *I* [List Icons]

Audio is costly to fix in post-production and poor audio can ruin an audience's experience.

p

15. Who generally comprises a sound crew?

File Edit View Format

← → Formats **B** *I* [List Icons]

Mixer, boom operator, and one or two assistants.

p

16. Why does the mixer need to make sure levels are kept within a proper range?

File Edit View Format

← → Formats **B** *I* [List Icons]

Sounds recorded at too high of a level will be distorted and difficult to fix in post.

p

17. What are the tasks of a sound assistant?

File Edit View Format

← → Formats **B** *I* [List Icons]

Attaching wireless mics to actors, retrieving those mics when an actor leaves set, wrapping cables, and charging batteries.

p

18. What is time code used for?

File Edit View Format

← → Formats **B** *I* [List Icons]

Timecode enables the DIT to show the director what previous takes look and sound like.
