

Steven Abelson- Assignment 1

I have it in me to be a storyteller in all forms, acting, writing, editing and even directing. My desire to want to direct something first began to emerge while attending my second acting school, Vancouver Film School, in Vancouver BC. The projects were to be directed by those with much more experience than I at the time. I kept wanting to jump in and take charge because what they were doing made no sense not just to me but to my family when they saw the completed story.

Since then my passion for acting along with writing and directing began to really blossom. My acting ever evolving and my love for directing and writing growing more strong.

I would like gain resources to grant me the full ability to create my own projects and cast myself in them. If I am appointed director of a project and I am not the writer then I will find a character in the script to portray. Number one is acting, number 2, writing and number three is directing and four is editing.

I have seen that the film industry has gotten to comfortable with certain elements and I want to bring back a little bit of old fashion along with fresh new elements. I will start off with film editing to support myself not just artisticly but financially as I am writing a script to direct and act in.

So in short I will be an actor-director-writer-editor.

I will be apart of studio or a team within a studio of whom I will work with and be team leader.
